15 in 3

Bakley and McCann are the only ones with a plan to cut the size of county government by 15% in the next 3 years.

Less government and lower taxes. That's the change we need and the change conservative Republicans Ralph Bakley and John McCann will deliver.

Here's what the Bakley-McCann 15 in 3 Plan means for taxpayers:

Less Government: The size of county government will be cut 15% by 2013 while protecting top-notch services.

Change: Focus on innovative and cost-effective approaches to county operations like privatization and shared services.

Lowest County Taxes: Spending cuts will enable Cape May County's tax rate to remain the lowest of all 21 counties in New Jersey.

Bakley McCann

BIG SPENDER

Gerald Thornton is the Cape May County Freeholder with responsibility for our county's senior services. Here's his record:

With Thornton, our county nursing home loses almost \$3.4 million a year. PROOF: Technical Analysis for Government 9/14/09

It costs taxpayers \$570,000 a year for the Thornton-supervised meals-on-wheels program.

PROOF: Technical Analysis for Government 9/14/09

Our Home Health Agency lost close to \$800,000 each year under Thornton's supervision. PROOF: Tax Force Review Study 1/12/10

We can do better. We need a change.
